

Policy P1700 Uniform Guidance for Grants and Cooperative Agreements

The administration of federal grants and cooperative agreements at all institutions of higher education are governed by Office of Management and Budget (OMB) guidance entitled ***Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in the Federal Register***. This “Uniform Guidance” consolidates and revises federal guidelines impacting research administration, including procurement standards. On May 17, 2017, the OMB issued a one year postponement of the grace period for the implementation of the revised procurement standards. The new implementation date is effective for fiscal years beginning on or after December 26, 2017. Accordingly, Long Island University has elected to follow previous OMB guidance related to procurement standards through the end of its fiscal year ending August 31, 2018. The University will take steps to ensure that the revised procurement standards as presented in the Uniform Guidance are properly implemented and effective on September 1, 2018.
